Meridian Systems Announces New System Integrator Alliance With RealFoundations

New strategic System Integrator (SI) will offer Proliance software implementation, technical services, process analysis and consulting

Folsom, CA, August 13, 2007 – Meridian Systems, provider of enterprise project management software for optimizing capital projects, programs and facilities, today announced a new System Integrator (SI) relationship with RealFoundations, a full-service management consultancy focused exclusively on companies in the real estate industry and the real estate function of large corporations. RealFoundations will assist its clients in the deployment of Meridian's Proliance(R) software solution.

Proliance software combines project and portfolio management, facilities management, business process management and business analytics to create one comprehensive software system of record for tracking the performance of large capital projects and programs.

"Our alliance with Meridian Systems enables the delivery of class leading solutions to our shared clients by combining our proven services and expertise in the real estate industry with the project and portfolio management functionality of Proliance software," said David Stanford, Executive Director, RealFoundations.

RealFoundations is charged with developing a Proliance practice that offers implementation, technical services and process analysis and consulting. In order to develop a deep understanding of Meridian technologies and customer requirements, RealFoundations, as a strategic partner, will have access to Meridian eLearning, Meridian Developer Network Participation, software support and maintenance, certifications, and more.

In addition to providing Proliance software customers with strategic deployment expertise, RealFoundations will deliver expanded services to companies that require additional resources or ongoing support. Proliance software configuration maintenance, business process analysis and on-site support are examples of these expanded services.

About RealFoundations
